

RM Weekly Testimonies

From Ben, Kenya

Dear RM,

Receive our greetings once again in Jesus our Messiah. We are doing well and the work is prospering. I take this opportunity to thank you for your support and prayers. Your support is very important not only to us but also to the students of the word who are benefitting with the three angels message, health messages and humanitarian assistance. God has been faithful, God enabled us buy medicines for treating jiggers and pesticide for spraying bedbugs. This week we have been treating our fellow brethren and the students of the Word who have been affected by jiggers and on Wednesday we sprayed bedbugs.

It's also good to clarify that our focus and duty has been to present the three angels messages. Presenting this message will forever remain in our hearts. Taking care of the needs and treatments we are sometimes doing is just a project under/within evangelism we are doing only if extra resources are available. But our main focus is evangelism and bible teachings. We are still using radios to communicate end time truth. We are still running bible study classes and still maintain and encourage Sabbath keeping home churches. As we continue to run these bible study/teaching programs, we are recruiting more bible workers to help us reach different regions and their villages. On Monday, Brothers Kennedy, and Ashton and I, were on the field teach the word of God and also treating jiggers. People sees us differently, because we are not only teaching the word for free and giving books, but also sometimes spending on treating them and buying some few blankets and small shopping to the less fortunate families.

This is one of our Sabbath meetings. All souls in this photo keep the Sabbath holy. Some did not come because of health challenges. We have rented one of the rooms behind for Sabbath meetings and weekly bible study classes.

This is another house we have gotten and we will be sharing with them once a week. They are brother Dominic Wanami, sister Gloria and their daughter. The study was about "Sunday is not a day of worship", and how was Sunday brought in Christianity by the little horn power.

This meeting happened on Monday. This group fellowship at Maranatha church. Their foundation is just bad. They worship on Sunday, baptize and believe in the trinity, and they believe in salvation by faith which to them means not keeping the laws, people burning in hell etc. The man with a hat on is an evangelist of this Maranatha church and he has two wives because his Maranatha church allows him. Our stand on truth is firm and we started by exposing errors in their denomination. They have called for every Monday for bible study classes. From this group, we treated two people who have been affected by jiggers.

These are two people who have been affected by jiggers, a mother and her son. The house behind is where the mother stays. Sorry, our camera did not take the whole house only a quarter.

This group is one of bible classes we are running. The number has been reducing but we thank God for the few faithful ones who are still eager to learn and to be taught. Our study was about two choices/No middle ground. But it is a community that has been affected by jiggers.

We then treated jiggers. This is what jiggers do to a person.

After cleaning and removing jiggers, we then dip their legs inside treated water. Legs will stay inside treated water for half an hour. During this time, remaining jiggers will suffocate and die and their eggs will also die.

Brother Keenedy supporting the young boy who is affected by jiggers stand in treated water. Our brother Ashton was taking the pictures.

Apart from teaching the word, our desire is also to see people healthy and happy. These families are happy with what we are doing to them. It means a lot to them. When they are affected by jiggers, they get isolated and discriminated.

We give glory to God. In total, we treated eight souls since Monday. The radios are active and Kennedy and I are still teaching the Word in the radios every Fridays. Our country's economy is really bad and life has really gone up, continue to pray for us. May God abundantly bless the entire Restitution Ministry. Shalom.

From Stefan, South Korea

Wrote on my white board the following in Korean, "Pleasure lovers are still crowding to theaters, horse races, gambling hells. The highest excitement prevails, yet probation's hour is fast closing, and every case is about to be eternally decided." Then as a Korean learner asked people at a freeway rest stop area if there are horse race tracks and gambling places in Korea. They said "yea one race track in Seoul and one legal gambling place near Sokcho". I wrote everything in blue letters but "probation's hour" in green letters. The goal was to have them wonder what "probation's hour" means. Had some nice conversations with the smokers telling them that the Most high God helped me to quit and that He will help them too! They gladly take tracts.

About 5 months back we had a 3 day forest fire within view of our house.(See pictures) So now there are little white cars with red flags driving around warning people about forest fires . Stopped to talk with one of these red flag drivers. He told me his

sister died a few years ago from eating pork. So told him you know the Bible says not to eat pork, he said oh that is just a parable, then i said no just a moment and ran to my truck to get my sword and we opened to Lev 11. We read how God tells us not to eat camel coney hare and swine flesh. He was surprised. We studied about the signs of the times and the return of Jesus. We talked about the ginseng field in front of us while talking. They like shade(see pics) Here is the one quote in the SOP about growing in the shade.

"It would seem that the ladies have a particular dislike for the sunlight, for they remain most of the time shut in from its influence, with curtains closed to keep it from fading the carpets, while for the want of it they themselves fade and become weak and sickly, like the plants which grow in the shade, and are never kissed, and colored, and strengthened, by the life-giving rays of the sun. If perchance they venture out into the open air and sunlight, they dare not go without carrying a shade to keep the sun from tanning their 'Lily-White' cheeks, just as though pale and sickly looking countenances were more beautiful and desirable than those which are ever blooming with the fresh, clear, and sparkling hues of health. {HR April 1, 1871, par. 13}

"Ladies, if you wish to be strong and healthy, and desire to possess true beauty, and not the sentimental shadow of it, seek the glorious, God-given sunlight, and bask in the smiles of 'the light and life of the world;' let it enter freely into your dwellings, and occupy no room where it cannot and does not enter; be out of doors all that you can every day, and especially when the sun shines, and fear not to look 'old king sol' in the face, instead of cowardly skulking along under a parasol, as though ashamed to meet his keen and searching glance. Sunlight is one of the best tonics and beautifiers in the world; therefore, men, women, and children, one and all, should seek it as one of the great natural agencies which help to form the 'elixir of life.'" {HR April 1, 1871, par. 14}

Today in Ok Chun set up my white board at a college in front of a pagoda then asked the students what the Chinese writing was on the pagoda? Have found out the method of Jesus is the best to meet strangers and strike up a conversation. A favor and a question.

Jesus saith unto her, Give me to drink, John 4 (the favor) John 6:5

"When Jesus then lifted up [his] eyes, and saw a great company come unto him, he saith unto Philip, Whence shall we buy bread, that these may eat?

6:6 And this he said to prove him: for he himself knew what he would do.

I ask not for a drink but for them to help me with Korean.

North Korean sent up missiles again today.

Pray for Korea,
thanks , Stefan

From Beatrice, Kenya

Dear Neville.

I take the opportunity to thank God for these far He has brought us. Also thank the RM and few individuals who have stood with us during this hard time of the pandemic. Surely we have seen the hand of God leading us because we have been home through no movements.

Our home church is doing great and the fear of covid 19 had brought many people close to God. Though at first we never met as usual but now again the members have started coming. We meet outside not in the house but under trees. Now that the children are home for Easter holiday, the number is a bit high.

I meet some ladies every Wednesday at noon for our Bible study which has inspired them till now and they request that we visit each at their homes for prayers and study. I usually meet with the sick and less fortunate, and whenever we discuss they open up on how they are suffering, sometimes I feel I could help but I find myself unable. Other times we can share what we get.

The children are doing well except that life is really getting harder and harder. I only get food from my garden which is corn and veges, I sometimes need rice, soap cooking oil etc but its difficult. I have two cows which I milk and get some milk to sell so that I can get the basics but its not enough also the kids are in schools, they need uniforms, shoes, fees and writing materials. If there is any well wishers who can support I will appreciate. We all are growing old not as strong as I used to be.

God bless you.

Regards Beatrice.

From Pr. Naik, India

Greetings in the name of our lord and savior Jesus Christ dear brothers and sisters Christ. Jewellers father has given me this wonderful opportunity to reach all these Christian believers with the everlasting Gospel of Jesus Christ.

Thank you so much for your prayers and support it's a wonderful opportunity to share the wonderful message

with all these brothers and sisters the power of God is moving in our life to reach all this brothers and sisters to prepare their souls to meet our lord and savior Jesus Christ.

God bless you. Regards. Brother Naik.

From Kennedy, Kenya

Dear brothers and sisters in R M,

Am so happy and humbled when am putting this down with what Christ is enabling us to in His field in Kenya. I hope you are all fine and caring on with our master's work. We are fine; the work is going on well.

I take this time to say thank you again for the radio program that we are using now to spread the truth into the hearts of men around Siaya County. Tomorrow I will be going to the radio and I will be introducing the topic about the God of the bible. Last week I was teaching about the church and people were calling when on air and even after radio program, pray for the program because it is showing a good sign of reaching people in a radio way. Above is a picture of our first meeting as a result of the radio program.

This is brother Ashiton, one of our fellow bible teachers. He is taking Brother Samuel through bible teachings on how can a man lose the eternal kingdom while attending a fallen church. Brother Samuel is one of our students who is always kind during studies. He has accepted to be taught and knew the right way. Next week Ashiton will be taking him through bible prophecy of Revelation.

This is a class that we have been teaching for some weeks now. It is a good class which keeps on decreasing in number as days goes on with different topic, from milk to hard stuff. We started with a full room but now we can see free spaces in the room. I thank God because a few that we have now are strong and still willing to be given more.

This is a group that I was introduced to yesterday in Kakamega by brother Peter who is working with me in those areas. It was a wonderful meeting have new souls that are willing to change their way and come back to the Lord. I introduced to them three angles massage and hope to continue with them next week again.

Here is brother Peter again at a place called Navakholo. He was introducing us to this group. He is one of the faithful brothers that is doing a lot in those areas. Even though am giving him something small from what the ministry is supporting me but he showing good attitude towards the work of God. We will be meeting with these people every Monday of the week.

Brethren, pray for us and our master's work in Kenya. We are looking forward to reach more souls this year in areas that we have never been before. The work is increasing every day and without your prayer and support brethren, a lot cannot be achieved. Thank you brethren and God bless all. - KENNEDY.
